EDUCATION

VNIT , Nagpur	NOV' 21 - MAY'25
B.tech Electronic and Communication	GPA: 3.12
Relevant coursework: AA GRADE IN EDC PROJECT	
SFS JUNIOR COLLEGE , NAGPUR	NOV'19- MAY'21
HIGHER SECONDARY CERTIFICATE (12TH GRADE)	GPA: 3.89
AEHS , Nagpur	MAY'19
SECONDARY SCHOOL CERTIFICATE(10 TH GRADE)	GPA: 3.51

PROFESSIONAL EXPERIENCE

COGNIZANT - INDIA	JUL-2023
VIRTUAL INTERN	

- The Cognizant internship in project management with a focus on Agile methodology is an immersive and transformative experience for aspiring professionals seeking to excel in the dynamic world of IT consulting.
- Throughout the program, interns are introduced to the fundamental principles and practices of Agile project management, gaining a profound understanding of iterative development, adaptive planning, and cross-functional collaboration.
- Under the expert guidance of seasoned mentors, interns actively participate in real-world projects, honing their skills in implementing Agile frameworks, such as Scrum and Kanban, to deliver exceptional results in an ever-evolving business landscape.
- The internship fosters a culture of innovation, empowering interns to embrace challenges, leverage cutting-edge tools, and effectively manage project timelines and resources.

JP MORGAN & CHASE - INDIA	JUL-2023
VIRTUAL INTERN	

- As an intern at JPMorgan Chase & Co. for the Software Development role, you will have the invaluable opportunity to immerse yourself in one of the world's leading financial institutions, renowned for its cutting-edge technology and innovation.
- Throughout your internship, I worked closely with seasoned software developers, engaging in diverse projects that directly impact the organization's global operations.
- Got insight into React and web- framework.

REDBULL - INDIA	JUL-2023
VIRTUAL INTERN	

- Developed a deep understanding of on-premise sales strategies through a virtual program, gaining insights into the intricacies of selling products directly to businesses.
- Participated in virtual workshops and interactive sessions, honing essential sales skills such as relationship building, negotiation, and product knowledge.
- Collaborated with industry experts and peers, fostering valuable connections and networking opportunities within the on-premise sales sector.
- Gained practical experience in crafting persuasive sales pitches and strategies tailored to the unique needs of on-premise clients, enhancing my ability to drive sales in this specific market segment.

PROJECTS

MY PORTFOLIO	JUL'21
---------------------	--------

- **Diverse Skillset:** Highlight a range of skills, from web development and design to project management and problem-solving.
- **Creative Projects:** Showcase a variety of creative projects, including websites, applications, or artwork, demonstrating your versatility and creativity.
- **Passion for Learning:** Emphasize your commitment to continuous learning and improvement, showcasing how you adapt and stay updated in the ever-evolving tech landscape.

Transformative Course Redesign in the Coding Platform Acetech	July 2023 - Present
--	---------------------

- As part of my internship at Acetech, a dynamic startup at the forefront of software education, I undertook a pivotal project aimed at the meticulous redesign of their course offerings. This initiative was driven by the company's strategic merger, presenting a unique opportunity to optimize and tailor their curriculum to the discerning preferences of diverse user groups.
- My approach commenced with a rigorous segmentation of our customer base, aligning with their distinct aspirations and inclinations. This segmentation yielded three primary categories: the ambitious job seekers seeking a competitive edge, the avid tech enthusiasts with an insatiable appetite for knowledge, and the enthusiastic coders looking to nurture their coding prowess. This meticulous categorization served as the foundation for the subsequent course redesign efforts.
- The introduction of a credit system facilitated a structured and incremental learning approach, empowering learners to pace themselves while mastering complex concepts. Furthermore, the integration of course outcomes and program objectives provided transparent learning pathways, ensuring that each participant could chart their progress and align it with their personal goals.
- In summation, the course redesign project at Acetech epitomized a harmonious convergence of pedagogical insight and technological innovation. By meticulously segmenting users, collaborating with a talented team, and introducing groundbreaking features, we successfully transformed the learning landscape for job seekers, tech enthusiasts, and aspiring coders alike.

VEHICLE MANAGEMENT SYSTEM COLLEGE PROJECT	July 2022 - November 2023
--	---------------------------

- A Vehicle Management System is a comprehensive software solution designed to streamline and automate various aspects of managing a fleet of vehicles.
- It provides organizations, such as transportation companies, logistics firms, or car rental agencies, with the tools and features to effectively monitor, track, and maintain their vehicles.
- This system typically includes modules that cover key functionalities, such as vehicle tracking and monitoring, maintenance and repairs, fuel management, driver management, and reporting

SKILLS

Functional :	PRODUCT DESGIN, USER REQUIREMENT., AGILE DEVELOPMENT, GOOGLE ANALYTICS, SALES, USER REQUIREMENT, USER STORY DEVELOPMENT, PRODUCT MANAGEMENT, PRODUCT ARCHITECTURE, PRODUCT STRATEGY
Technical :	HTML, CSS, JAVASCRIPT, C, C++, PROMPT ENGINEERING, SQL, PYTHON, REACT

ACHIEVEMENTS

- Completed Google Analysis Course
- 100+Points on GEEKS FOR GEEKS
- Software Engineering Virtual Experience, JPMC
- On-Premise Sales Virtual Experience Program, Redbull
- Published A Novel “Ajnyanam” and “White Hand”.
- Secured 1350 Cat. Rank in Jee Mains 2021
- Secured 98.32 percentile in MHT CET 2021
